## Polycom<sup>®</sup> VSX<sup>™</sup> 5000 Features and Benefits

	Audio
G.722.1 Annex C (based on Polycom Siren™ 14)	<ul> <li>14 kHz crystal clear, wideband audio, while only using 24-48 Kbps of bandwidth, depending on the data rate of the call</li> <li>Eliminates fatigue associated with straining to hear every word</li> <li>Near CD-quality sound for dynamic audio performance</li> <li>Superb clarity to hear the subtleties of every word</li> <li>Rated the best audio algorithm in the industry; outperforming MPEG4 in all tests</li> <li>Included with every VSX and V-series system</li> <li>For more detailed information, see www.polycom.com/siren14</li> </ul>
Polycom StereoSurround™	<ul> <li>2 channels of 14 kHz crystal clear audio</li> <li>Superb clarity to hear the subtleties of every word</li> <li>Easily decipher multiple, simultaneous conversations</li> <li>Distinguish which side of the room people are talking from, just like in a real meeting</li> </ul>
SoundStation VTX 1000® Integration*	<ul> <li>Use the SoundStation VTX 1000 as the microphone for the video system, as well as a standalone audio conferencing phone, and eliminates the VSX tabletop microphone array</li> <li>Enables POTS voice-only callers to be added to a video conference</li> <li>Maximize the value of audio and video equipment investments when used together</li> <li>Enhanced voice pickup range compared to other microphone solutions - you can additionally use the SoundStation VTX 1000 extension microphones for even greater pickup</li> <li>Video dial, mute, call hangup and call redial from the SoundStation VTX 1000 keypad</li> <li>Upgrade an audio call between SoundStation VTX 1000s when integrated with your VSX to video by simply pressing one button</li> <li>Supports StereoSurround</li> </ul>
VSX Microphone Array	<ul> <li>360° audio pickup</li> <li>Padded feet filter out table-top noise</li> <li>Sensitive enough to pick up whispers, smart enough to eliminate unwanted background noise</li> <li>Versatile and attractive design for table top, wall or ceiling mount</li> <li>Only one VSX microphone array needed to support StereoSurround</li> <li>Gated enhanced stereo pickup</li> </ul>
Audio Error Concealment	<ul> <li>Reduced audio drop-out on noisy networks</li> <li>Smooth, consistent verbal communications without interruptions</li> <li>Corrects audio from any system seamlessly</li> <li>Activates automatically, only when needed</li> </ul>

Activates automatically, only when needed

	Video
H.264 Video	<ul> <li>Use less bandwidth to conduct video calls of equal quality when compared to calls using the H.263 standard</li> </ul>
	Unparalleled video quality for lower line rate applications
	<ul> <li>More bandwidth is available for other business</li> </ul>
	Cost savings to any organization
	<ul> <li>Supported at data rates from 64Kbps to 768Kbps</li> </ul>
Pro-Motion™ H.263 – receive only	<ul> <li>Full-screen, TV-like video quality with fluid, precise motion handling</li> </ul>
	<ul> <li>Greater image detail with 50/60 fields per second</li> </ul>
	<ul> <li>Most natural video communications experience possible</li> </ul>
XGA Monitor Support	Use a XGA display for main display or 2 <sup>nd</sup> display
- ······ -·····	Clearly see content in XGA resolution
	• Flexibility in configuration, allowing users the display of their
	choice
	<ul> <li>Supports up to 1024 x 768 resolution</li> </ul>
Support for 16:9 or 4:3 Format	User selectable display format
	<ul> <li>16:9 aspect ratio with Dual Monitor Emulation is perfect for widescreen displays</li> </ul>
	<ul> <li>High resolution graphics displays for content presentation</li> </ul>
	<ul> <li>Option to zoom video to fit the 16:9 display</li> </ul>
Video Error Concealment	<ul> <li>Reduced video drop-out on busy IP networks and the Internet</li> </ul>
	<ul> <li>Smooth, continuous video without interruptions</li> </ul>
	<ul> <li>Maintain active face-to-face contact</li> </ul>
	<ul> <li>Accomplish meeting objectives without worrying about the video integrity</li> </ul>
	<ul> <li>Activates automatically, only when needed</li> </ul>
	Content Sharing
People+Content™, H.239	<ul> <li>Polycom People+Content or standards based H.239 to insure interoperability</li> </ul>
	<ul> <li>Dual images allows the far end to see the content and the speaker at the same time</li> </ul>
	<ul> <li>Using Polycom's Visual Concert VSX, easily attach a laptop and display PC content (audio and video) during a video call</li> </ul>
	<ul> <li>Perfect for outside speakers/visitors to easily add content to a video conference</li> </ul>
People+Content IP	<ul> <li>Using a light utility on your PC, simply connect to your V500 and PC content is shown to all conference participants</li> </ul>
	<ul> <li>This feature can be used by anyone in the conference, even remote voice-only participants!</li> </ul>
Adjustable Bandwidth for Content	<ul> <li>Choose variable bandwidth allocated to People or Content</li> <li>Allows setting quality preference of a 90% / 10% split between People and Content or sharing bandwidth equally between People and Content (50% / 50%)</li> </ul>
	User adjustable setting can be accessed both during a call and outside of a call

User Interface
<ul> <li>Custom control touch panel integration including AMX<sup>®</sup> or Crestron<sup>®</sup> is made easy with extensive support for API command</li> </ul>
set
Integrator's Reference Manual for VSX Series details over 200     commands for appaid applications
commands for special applications <ul> <li>Sample control templates are available for touch panel integration</li> </ul>
<ul> <li>Sample control templates are available for touch panel integration that provides basic functionality right out of the box</li> </ul>
<ul> <li>Quick and easy access to a monthly calendar with current date and</li> </ul>
time posting
<ul> <li>Schedule individual or repeat meetings to dial automatically</li> </ul>
<ul> <li>Create and save multipoint team meetings</li> </ul>
<ul> <li>Display only the necessary buttons on the Home Page</li> </ul>
<ul> <li>Unique design to meet your organization's needs</li> </ul>
Simplified graphical interface for novice users
<ul> <li>Easy to understand icon driven menu navigation decreases learning curve</li> </ul>
<ul> <li>Kiosk node allows you to create a look and feel that suits your</li> </ul>
application
<ul> <li>Leads to increased use of video</li> </ul>
Use Dual Monitor Emulation for the most efficient use of a single
display
<ul> <li>Makes effective use of 16:9 displays</li> </ul>
<ul> <li>View near and far video windows at the same time</li> </ul>
Alternate layout views supporting near end, far end and content
Use icons that represent your industry
<ul><li>Intuitive icons match the input device</li><li>Custom name gives the icon clear meaning</li></ul>
<ul> <li>Selection – 5 libraries to choose from</li> </ul>
Decreases learning curve
Allows you to configure displays for your application
Single or dual displays
XGA or NTSC / PAL
<ul> <li>4x3 or 16x9 formats</li> </ul>
<ul> <li>Decide what shows on each display, near end, far end, content and VCR output</li> </ul>
Platform Versatility
<ul> <li>Integrates directly with Microsoft collaboration infrastructure</li> </ul>
<ul> <li>Registers and authenticates with Microsoft LCS 2005</li> </ul>
VSX users can be added to Microsoft Communicator
<ul> <li>Presence information sent to LCS indicating video buddies'</li> </ul>
availability
<ul> <li>Use Buddy list to launch calls from the VSX 5000 user interface</li> <li>Provides flexibility and choice</li> </ul>
<ul> <li>Second camera can be easily added, and selected in the user</li> </ul>
interface
<ul> <li>Add document camera, VCR/DVD or any other second video</li> </ul>
source to bring another dimension to any video conference
<ul> <li>VSX systems are the most secure video conferencing solutions in the industry</li> </ul>
the industry
<ul> <li>Now, all access to the VSX system can be secured including.</li> </ul>
<ul> <li>Now, all access to the VSX system can be secured including accessing the VSX system via web-browser as well as secure</li> </ul>
accessing the VSX system via web-browser as well as secure
accessing the VSX system via web-browser as well as secure
<ul> <li>accessing the VSX system via web-browser as well as secure telnet and ftp access via SSH for secure system administration and application connectivity</li> <li>Communications are confidential and secure</li> </ul>
accessing the VSX system via web-browser as well as secure telnet and ftp access via SSH for secure system administration and application connectivity

	<ul> <li>Built-in, no extra hardware required</li> </ul>
H.460 NAT/Firewall Traversal	<ul> <li>Standards compliance for traversing NATs and Firewalls</li> <li>Session border controller (V2IU) is only needed at the central location and all VSX systems with H.460 can communicate through the single V2IU</li> </ul>
	<ul> <li>Uses H.460.18 for signaling traversal and call establishment and H.460.19 for media traversal</li> </ul>
IP (H.323, SIP or SCCP) or ISDN	<ul> <li>H.323 and SIP are standard; choose the H.320 interface best for your application</li> <li>SCCP – integration with Cisco Call Manager (in 128 MB systems)</li> <li>Choose the right option for your specific network connection</li> <li>Supports UPnP and NAT for automatic setup of conferences conducted through firewalls</li> <li>Wide range of IP QoS services to insure call quality and integrity</li> <li>Optional H.320 interface is a Quad BRI module</li> </ul>
Multiple Use RS-232 Port	<ul><li>RS-232, DB9 port</li><li>Transparent data pass-thru in H.320 or H.323</li></ul>
E-Mail dialing format when dialing across IP security boundaries	<ul> <li>Peripheral options from Polycom Custom Products</li> <li>Easy and intuitive E-mail video dialing</li> <li>Operates with Polycom's V2IU<sup>™</sup> Firewall Traversal Appliance</li> <li>Deployable to wide range of customers, suppliers and partners</li> </ul>
Part of Polycom's Unified Collaborative Communications	<ul> <li>Interoperability</li> <li>Remote management through Global Management System<sup>™</sup></li> <li>MGC Click &amp; View<sup>™</sup> offers a variety of layout templates for a multipoint call right from the system's handheld remote</li> <li>Extended conferencing with Polycom PathNavigator<sup>™</sup></li> <li>Schedule, invite participants and manage conferences easily with Polycom Conference Suite</li> </ul>
	<ul> <li>Expand meeting capabilities by adding voice-only participants using the SoundStation VTX 1000 conference phone</li> <li>Use the Polycom SE200 for management, scheduling and gatekeeping</li> </ul>
Configurable MTU packet size	<ul> <li>Allows administrators to set the MTU packet size, based on needs of their network</li> <li>Optimizes packet size minimizing overhead and network congestion</li> <li>Default setting is 1260</li> </ul>
Standards-based	<ul> <li>Solid, reliable platform</li> <li>Qualified by independent test labs</li> <li>Interoperates with other vendor's systems</li> <li>Easy to install even in a multi-vendor environment</li> <li>See technical specifications for full list of standards</li> </ul>
FIPS 140-2 Certified	<ul> <li>Secure FTP, Telnet and Web</li> <li>VSX and V-series systems are the most secure video conferencing solutions in the industry</li> <li>Now, all access to the VSX system can be secured including accessing the VSX system via web-browser as well as secure telnet and ftp access via SSH for secure system administration and application connectivity</li> </ul>
Baseline Mode	<ul> <li>Set your system to baseline mode, H.261 and G.711, for maximum interoperability with legacy video conferencing systems</li> <li>Accessible via web, FTP or on-screen UI for easy access by the network administrator</li> <li>Can be turned on and off as needed</li> </ul>
